

Aaron Dudley
Marshfield
LD 227

Senator Bailey, Representative Perry and members of the committee,

I write to you today as a father of 8. The role of Parent is so profoundly linked to a healthy society. The 5th commandment makes plain God's expectation that we would Honor our Parents. The Government has no business interfering with this Sacred right! LD 227 is absolutely inappropriate. It will bring lawsuits on Maine, expenses to our taxpayers, and I'm even concerned it will provoke rage in parents from other states. These young people will have the rest of their adult lives to make a myriad of good and bad decisions on their own. Please leave the first 18 years of development to the people God has entrusted with that responsibility, The Parents. I'm asking you to vote concerning LD 227 ought not to pass!
