

Dorothy McLaughlin
Buxton
LD 227

Senator Bailey, Representative Perry, and members of the Legislative Health Coverage, Insurance and Financial Services Committee, I am Dorothy "Linda" McLaughlin, I live in Buxton, Maine, and I am writing to testify strongly against LD227, an Act regarding Health Care in the State. I disagree that gender affirming care is a right, it is a choice as is reproductive care. The state could be required to pay for these services and object to my tax dollars funding these procedures. To become a sanctuary state for these procedures when minors are involved undermines parental authority. Please vote ought not to pass.

Sincerely
Dorothy Linda McLaughlin
