

Ramona York
Chester
LD 227

Senator Bailey and Representative Perry and members of the Legislative Health Care, Insurance and Financial Services Committee

I am, Ramona York, I live in Chester, Maine, and I am here to testify strongly against LD 227, An Act regarding Health Care in the State.

I am strongly opposed to this bill because abortion is wrong!! I stand up for life, for mother and baby. Maine already has a law for abortion that gives the mother and doctor a decision to be made if someone's life is in danger. There have been many times a woman has been pregnant and the doctor or a test said that there was something wrong with the child and the parents chose life and when that child was born there was absolutely nothing wrong with the child. Doctors only have a license to practice medicine, they are not all knowing, they make mistakes. Our State does not want abortion, kill this bill!!

If a person wants to be something they were not born to be then let them wait until they are of age to make such a decision. I believe this too is wrong. To take away parents rights, is wrong!! A child does not know what he/she wants to be when they grow up. One day they want to be a dog, a dinosaur, a fireman, a cop, a farmer, etc they are too young to be able to make such an altering decision. There are many who have gone down the transgender path and are now speaking out against it because they know first hand that it adds more scars to their life.

I strongly oppose LD 227, it is not a bill for Maine!!

Thank you for your time. It is greatly appreciated!!
