

Crystal Stone
Waterville
LD 227

Senator Bailey, Representative Perry and members of the Legislative Health Care, Insurance and Financial Services Committee, My name is Crystal Stone, I live in Waterville, Maine and I am here to testify strongly AGAINST LD 227, An Act Regarding Health Care in the State.

This is bad for Maine on so many levels, but probably the one thing that everyone can agree with- its bad for Maine Taxpayers. We can not handle the huge financial burden that these types of services will inflict on Maine families now and in many years to come. We are already one of the highest taxed states, but adding this to the already allocated dollars to supporting illegal immigrants with healthcare and housing will be absolutely crippling. This is sure to cause future generations to leave our state taking with them their tax dollars. If you care anything about our once beautiful state and its people. You will not only kill this bill here, but any to come. Thank you for your time.
