LD 2224

I am a physician and mother of 3 school aged children. I am writing to urge the committee to amend LD 2224 so that ALL gun sales are subject to a background check. Allowing loopholes that can put guns in the hands of those with a history of violence places Mainers at continued risk. I am also asking that an Extreme Risk Protection order be added to this act so that firearms can be temporarily removed from individuals who are a danger to themselves or others without requiring a mental health assessment.
