LD 2238

I wholeheartedly support LD2238 to establish a 72 hour waiting period before a s=gun seller can deliver a gun to a buyer. This allows a full background check to ensure that the gun buyer is prohibited from purchasing a gun because of mental instability, prior conviction or other prohibition against gun ownership. Such a provision does not prevent a qualified person from owning a gun - it is a reasonable delay to protect the general public from having guns fall into the wrong hands.
