

March 6, 2024

Senator Carney, Representative Rep. Moonen, members of the Judiciary Committee, my name is Gregory Hunnewell from Belgrade Maine, I am submitting my testimony on LD 2224 to oppose this bill in it's entirety, as there are so many vague interpretations in the language of this bill that it becomes a very slippery slope as to our rights under the second amendment, I come from a hunting family and during the fall hunting season we have various family members and close friends that all use the same firearms for hunting during the fall

I can clearly see this as a prelude to firearms registration and I adamantly oppose this type of action. So that being said I have no choice other than to oppose the bill as written.
