

Jill Folsom
Alfred
LD 2238

As a woman who has worked in public and private schools as an administrator, I understand the challenges of dealing with active shooters. I urge you to OPPOSE LD 2238 as this is NOT a rational solution to the problem. A waiting period does not prevent nor solve the problem. It simply serves to salve the conscience of those who failed to follow the clear mandate to take action with the Lewiston soldier and to appear as a legislative solution, but rather this clearly reduces the rights and abilities of law abiding citizens to protect themselves and engage in shooting sports. Please OPPOSE LD 2238. I will be actively participating in the protection of 2nd Amendment rights protection as I expect legislators to do.
