LD 2224

I do not support LD 2224. All these proposed changes always seem to penalize honest law-abiding citizens. The language used is always misleading, such as "gun show loophole". No such thing. All purchases go through background checks regardless of location. As a gun owner I want to be able to transfer my guns to family members if I choose to without becoming a felon. Also, Facebook policy does not allow gun sales. More fearmongering to be sure. I do not think the extreme red flag law is good idea. Work on making the Yellow Flag law more specific and stronger in mental health issues. I see too much room for misuse by anti-gun people against lawful gun owners or disgruntled and vindictive ex's .
