I am asking you to vote "ought not to pass" on bill that infringes on our Second Amendment rights to buy, own and possess firearms. Putting a time limit or any kind of obstacle in the way of that right is against the Constitution of the United States of America. No amount of time is going to stop the misuse of a firearm. Only making sure that those who need help with their mental issues, and their families, have the ability to get that help. Legislation to improve police procedures, Programs being available to families for counseling, and being able to go to someone for help is a better start than taking firearms out of the hands of people who have done nothing to deserve it. Again, please vote "ought not to pass." Thank you
