

Kelly Coffin
Clinton
LD 2238

To the honorable members of the Judiciary Committee. My name is Kelly Coffin and I am opposed to LD 2238. On the surface 3 days waiting period seems innocuous until you are a person who fears for their life. There are reasons why people get protection orders and may also want to be able to protect themselves. To feel some security in a possibly hostile situation. Domestic violence is real and has been on the rise for decades. Also, it is a right to own firearms in Maine for home defense. If a person wants to purchase a gun for home defense, they should not have to wait three days if they have no prior problems with the law.
