

LD 227

I submit this testimony today to show opposition to LD 227. This proposed bill is so depraved, wrong and immoral that it is hard to figure out where to start. These last few years it seems that the State of Maine is trying to outdo California in proposing nutty, stupid, immoral and depraved bills.

Aiding and abetting those who want to murder babies and permanently mutilate children who are under the age of consent is unconscionable. Particularly without the parent's knowledge or consent. This is criminal and inhuman. Though, I recognize there is a massive amount of dollars to be made!

I was recently listening to a historian, and he claimed that the last sign prior to the collapse of virtually all major civilizations/nations was the acceptance and practice of androgynous behaviors. This demonstrates how depraved the moral underpinnings of the nation have become.

Your great prophet, the late Saul Alinsky, wrote in his 'Rules for Radicals' (which he dedicated to Lucifer) that one will know that the collapse is imminent of the US and Capitalism is when the genders become confused. And now here we are.

I implore you and pray that you defeat this grotesque bill. I am praying for you. You may find that offensive. However, if you pass this bill your soul will need every bit of help it can get.

Respectfully,
Bob Bremm
