

Melissa Berky
Bangor
LD 2224

I do support LD 2224. But I really wish it was a RED FLAG BILL.

I do support a 72 hour waiting period but I really wish it took a lot more to purchase a gun such as safety classes.

Additionally people who are dangerous may not have a readily diagnosable mental health disorder.

And anti-violence measures are needed. I'm thinking jobs, education, housing, and of course mental health services too.
