

Brigitte Kingsbury
Cape Elizabeth
LD 2261

Dear committee members: I write to request that you vote NO on LD 2261.
This last minute bill undermines a NONPARTISAN process that has been worked on for almost a year. A year in which it has become clear that we Mainers wish for cleaner air for ourselves, our children and grandchildren AND we wish to have the electric cars available to help ensure that cleaner air.
With good wishes.
