To the representatives on this committee:

I strongly urge every single one of you to vote against this unconstitutional, atrocious bill! It violates due process, and has cost innocent lives in other states! Our Yellow Flag law has worked successfully over two hundred times over the past few years, and is working better than the Red Flag laws in other states. The authorities already ad the powers to stop Robert Card, and they dropped ball, big time. Passing more laws won't stop any criminals from getting and using guns, and only further endanger law abiding citizens.

The five states in the U.S., with the highest per capita ratios of gun ownership, have the lowest violent crime rates in the entire nation. Stop the anti-gun idiocy, as it only further endangers the law abiding citizens of our state. Thank you for your time.

Yours truly,
James Andrews
