RE: Public Hearing on LD 2283

I would like to submit this written testimony in favor of LD 2283 - Extreme Risk Protection Order - which allows family members to remove guns from other family members who pose a risk and/or inclination to gun violence. Twenty-one other states have implemented similar protections orders, including states with similar gun laws to Maine. As family members are the most likely to have early awareness of this kind of risk, I request the committee pass this legislation. Thank you for your consideration and service.
