This bill goes against the nature of Maine's own Constitution. Section 5 Unreasonable Searches Prohibited, Section 6 Rights of Persons Accused and 6-A, Section 16 To Keep and Bear Arms. Under Section 16 it plainly says 'Every citizen has a right to keep and bear arms and this right shall never be questioned.' Never be questioned. I think that says it all. The people who drafted this bill are attempting to use a very tragic, unfortunate event to remove the rights of citizens. Maine has a low crime rate, has an incredibly high number of gun owners, and is generally peaceful. Let's not take a situation that was very poorly handled by government already and make it into an even larger blunder.
