

Yvonna Green
Pittston
LD 2283

Greetings, Judiciary Committee

Thank you for the work you are doing to keep our state safe and lawful.

LD 2283 is not a bill that should be passed. Taking guns from the people of the state of Maine will not protect the public. In cases of random or mass shootings, it is often the normal person carrying their weapon who injures the shooter so that they quit shooting. That normal person saves lives!

Please vote "no" on LD 2283, and keep our state safe by allowing Maine citizens to own and use guns. It's our freedom. I beg you not to take away our freedoms!
Respectfully,
