

Heather Sprague  
Cushing  
LD 2283

Good morning members of the judiciary committee my name is Heather Sprague from Cushing and I oppose this bill on the grounds that the current laws are not being upheld, had the current laws been used in the Lewistown shooting it may have been avoided.

More laws will not help the "crisis" created by bad democrat policies if the current laws are not upheld.

State law enforcement, the Army National Guard and local Lewiston police that knew about Card but didnt act are responsible for the mass shooting, not law abiding Maine citizens of whom you are attempting to punish by creating new gun laws that infringe on their second amendment right.

Further more, I think Senator Carney should be excused from her chair position on this committee, lose her voting rights and not be involved in decision making for holding a closed door meeting with the ATF regarding Maines second amendment rights, seeking to make back room deals in order to take that right away from the citizens of Maine.

That is tyrannical and it goes against the oath she took.

This is just another attempt to create tyrannical and reckless laws that seek to punish instead of protect the law abiding citizens of Maine by the democrat members of this committee.

I respectfully ask you respect the rights of the citizens of Maine and vote ought not pass.

Thank you.
