

Grimmie Jones  
Milford  
LD 2283

I am a senior at the university of Maine and I am interning at the Department of Health and Human Services as a child protective caseworker. I am terrified of the world that I am going into, especially in wake of the tragic shootings in Lewiston from this past year. I fear for the youth that I care for in the state, and I know that they fear for themselves too. I hope that you vote to approve this legislation to make it more difficult for guns to fall into the hands of people who would use them to harm innocents. Please, if you care about the people in this state, vote for this bill.
