

Scott Moore  
Stockton Springs  
LD 2283

The State's current "Yellow Flag Law", if it had been duly enforced, would have been entirely sufficient to have prevented the Lewiston shooting incident. The emphasis here should be on assuring the proper execution of existing law. No amount of additional legislation will be of any use in the absence of proper enforcement. Nothing in the text of LD2283 provides any real assurance that it will be better executed than the existing law.
