

Vincent Marzilli II  
Enfield  
LD 2283

We do not need LD 2883. The Yellow Flag Laws in existence suffice. Maine ranks high on the list for gun safety and your efforts would be better directed towards other issues such as providing better mental health care for those in need, enabling police to enforce the existing laws, cleaning up the homeless problems spreading throughout the State, and providing access for wildlife through and within the excessive number of solar plants that have disgraced the Maine countryside.
