LD 2283

I would like to make clear my opposition to LD 2283, a bill that has been introduced with limited public notice.

The state's own investigation found that the tragedy in Lewiston would have been prevented had the current law been utilized, which it was not despite ample opportunities.

LD 2283 is not in the interest of Mainers. The focus now should be on law enforcements ability to enforce the existing law and any funding constraints hampering that effort.

Thank you for your consideration.
