Cushing
LD 2283

I oppose LD2283 in its entirety. The bill provides no protection from false accusations (due process) prior to action from the court. Nor does it allow for recovery from the harm caused to respondent during the defense of the order. It's a blatant attempt to disarm law abiding citizens of their means of self defense per the 2nd amendment. If it were an honest attempt to intervene on those intent on harming themselves or others, it wouldn't be "laser" focused on firearms; the bill would include the other weapons responsible for 1/3 of Maine homicides.
