LD 2283

To the Members of the Judiciary Committee:

Please support LD2268, the Extreme Risk Protection Order, which will help protect people from self-harm or harming others. This bill would allow family members as well as authorities to seek a court order that would allow the removal of guns from someone at risk of hurting themselves or others. This could save a lot of lives, and a lot of heartbreak. I urge you to pass this bill!
