I am writing in strong support of Maine finally enacting an Extreme Risk Protection Order. I have a right to live. My son has a right to live. My husband has a right to live. The victims of Lewiston had a right to live. And our right to live should outweigh totally unfettered access to weapons of war. I support the Second Amendment and have gun owners in my family and we all agree - just like driving a car - there should be common sense regulations in place to keep our communities safe.

ERPO bills are shown to be effective at keeping deadly weapons out of the hands of people who can cause mass destruction and terror. It is past due that Maine get our act together and pass this legislation. The time is now and your constituents are begging you to do something.

Thank you,
Julia King, Cumberland, Maine
