

Bruce Ashmore
Bucksport
LD 2283

I wish to testify against LD2283, red flags are repugnant to the constitutions of both the US and the State of Maine.

There are already numerous laws in place that actually afford due process to the accused which this law does not. Being able to state your case AFTER your rights have been violated is not due process.

I respectfully request a vote of Ought not to Pass from the committee on LD2283
