

Gail Witherill
Cumberland
LD 2283

Dear Judiciary Committee,

My name is Gail Witherill and I urge the committee to vote LD 2283 out of committee as Ought to Pass. This is a bill that will do what is needed to keep Mainers safe...allowing the process of alerting authorities when someone is in crisis to be more flexible in allowing families of a loved one in crisis to start the process in a less burdensome way than what is outlined in the current yellow flag process. Had the family of Mr. Card been able to use the process outlined in LD 2283, there would have been more of a possibility of stopping what became Maine's worse gun massacre. Mainers need this law.
