Bremen
LD 2283

Dear Chair and Members of the Judiciary Committee,

I am writing in support of LD2283.

I know you have heard testimony from gun safety advocates from a number of organizations, from people in the medical professions, and from a number of folks with a good deal of knowledge about this issue. I am someone who supports this bill because I do understand that it will strengthen the Extreme Risk Protection Orders (ERPO) and make it more difficult for a tragedy such as the one in Lewiston to occur.

Please vote "Ought to Pass" and demonstrate your commitment to do whatever you can to make Maine a state that puts the safety of its people first.

Thank you for your time.
