LD 209

I am opposed to LD 209 as I am very concerned this will hurt our most vulnerable populations. Many New Mainers for example, are required to wait for work permits and the wait times often extend beyond three months. This bill will force many to move out of apartments that they have secured, should they not be able to get jobs, through no fault of their own. Please think about these populations when considering this bill. Housing is a human right, we have a shortage of temporary housing as a state, and we should be doing everything we can to provide Mainers stable homes. Thanks for your consideration.

Sincerely,

Martha Leggat
