

Elaine Gerard
Penobscot
LD 234

Dear honorable members,

I am opposed to LD 234. Thousands of us worked hard to get Rank Choice voting on the ballot twice and it passed each time. It has worked well since. What I like about RCV is that anyone elected has the majority of voters to represent. As you know, our governors only receive just over one-third the necessary votes to win an election. A poor number to represent the majority of Mainers, I believe. At least at the federal level we have RCV. Please let this great option for voting to remain.
Thank you for your consideration.
