My wife and I moved to Maine in 2022 and I had never even heard of rank choice voting before. I will admit that I had to take about 5 mins to watch a quick video on how it works, but then I was sold. I have lived in and voted in 5 other states and none of them ever gave me this amazing choice. To feel empowered to vote for candidates that might not be in the dominating parties of my time, but to know, that I am not throwing away my one and only vote. That if my little known candidate does not somehow make the cut, that my more mainstream choice, for which I most often do have in mind, could still have my support. This is not having my vote count more than once. It ensures that it will always count by the time we get down to those final 2 candidates. Please continue to make this fair, simple and powerful tool available for Mainers. I would like to see how we can continue to lead the way on providing fair elections in this state and influence others to adopt rank choice voting.
