Maine is being taxed to DEATH! We are already struggling but Mills wants to add more state jobs? You can't tax your people into prosperity. If Mills cared about Mainers we'd be getting tax breaks and legislation that actually HELPS Mainers. Instead mills has lights the people of Maine by saying our economy is great even though most Mainers can't feel it or see it. Has she been talking lessons from biden? She is trying to turn Maine into Mainefornia. Absolutely disgusting to me and most other people who are trying to live in this state.
