Since 10/26/24, I have found out Matthew was transferred to Washington county then released from there on 12/13/24. I found this out by the State Domestic violence advocate called me. To let me know the State did not house him. He was in Washington County jail being held for Oxford county jail. She suggested to call Oxford county jail. I called few weeks ago prior to what I thought his release date was. According to what his Divorce lawyer was implying at our Divorce hearing on 12/30/24. January 4/2025 I called Oxford county jail spoke to Officer Billings he let me know he wasn't on their roaster. He would look into it and call me back. His Corp called me back with a half hour to inform me Matthew was released from Washington County on 12/13/24. Then I found out when I called the DA'd office to make a complaint about how Sonya Tibeteau dealt or didn't dealt with she never once gave me the my case. They were simpatico at first and helpful. Once I found out he was left without signing his Felony Bail conditions. That meant he wasn't nor did he have to follow them. I also found out he was let go in September 2024 within a month of him getting indicted hor Aggitvated domestic violence and strangulation. I want you to know when he was let out in September he was York county jail, and I was never in formed of his release. I had obtained an PFA while he was incarcerated there. Matthew did not and has not been held accountable for his actions. He has displayed anger and has beat up number people throughout his life. Not just me, I'm just the only woman he has laid his hands on. To my knowledge but Matthew was very good at hiding his dirty laundry. I didn't even know he was using meth my for years. Plus month right prior to my assault. Matthew would get agitated when he didn't have anymore to keep his high going. Then come the " head fits", " assaults" Things don't change and these people aren't held accountable. Then They will fell entitled and empowered. To continue to carry on with these actions. The DA's office never once throughout this whole process never had me come to a hearing or testify in my behave. She said, in the meeting prior to the conference of dispositions 5 pages worth. I wasn't going to sit there and hear them give him that gift now k owing he'd been out of jail just 3 days prior by mistake for a month!!!! Where is mine and my father's justice?!?!
