

Ralph Cadman
Westport Island
LD 234

I am writing in support of LD 234 to Eliminate Ranked Choice Voting. The ranked choice voting is not logical, it is not constitutional for Maine elections, and it is confusing to the voting public. The fact that our Sec of State has to provide complicated explanations about how and when we use rank choice voting is justification enough to eliminate it. I work the polls in my town, and I can state without hesitation that voters are still confused about how to fill out ranked choice ballots. Voting should be simple and straightforward. RCV is just a gimmick that complicates the voting process. An argument that it "saves money" is a poor justification to explain away our right to a simple voting process.
