## **Testimony in opposition to LD 59 to the Committee on Criminal Justice and Public Safety**

February 3, 2025

Senator Beebe-Center, Representative Hasenfus, and distinguished members of the Committee:

My name is Peter Lehman and I live in Thomaston. I am a formerly incarcerated citizen and a person in long-term recovery.\* I am testifying in opposition to LD 59 on behalf of the Maine Prisoner Advocacy Coalition whose goal is to promote restorative practices in order to increase public safety and the health of our community.

In the addiction recovery community, we often say that “insanity is doing the same thing over and over and hoping for a different result.” We say this because in addiction we often deny our addictions and convince ourselves that “this time will be different.”

It’s a habit. When in doubt or confusion or anxiety we try the same thing over and over again hoping that THIS TIME will be different. Insanity. Denial.

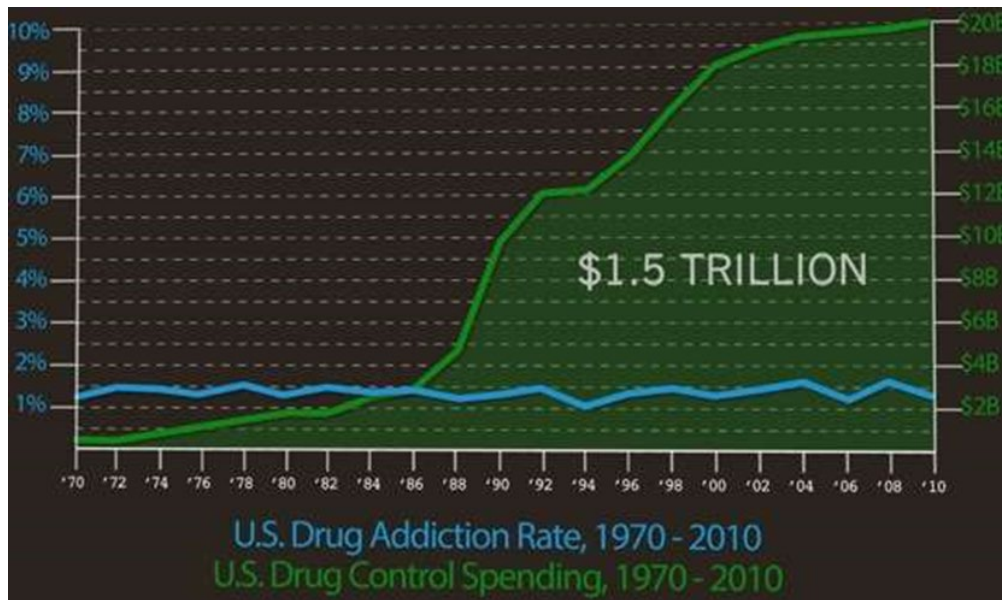

This bill is exactly the same thing. We **KNOW** that increasing penalties does NOT reduce drug use. It does not reduce demand. It does not reduce supply. It does NOT make people safer. It’s simply insanity.

The chart on the next page only goes to 2010 but I assure you that the trend continues. Despite our massive spending on enforcement and our massive spending on incarcerating people for trafficking, the extent of illegal drug use has not changed much.

What increasing penalties and enforcement DOES do, however, is make people LESS safe by diverting attention and resources from policies that work and reduce HARM.

The title of this bill says that it will “ensure safer communities.” It will not. Quite the opposite.

We urge you to defeat it LD 59.

Thank you for your generous attention.

I'd be happy to try to answer questions.
