

Janice de Lima  
Falmouth  
LD 185

Dear Taxation Committee members,

As a resident of Falmouth, Maine, I am writing in support of LD 185. TIFs are a great way to direct funding to specific areas and projects in Maine's towns and cities, that involve local input and prioritization. Municipal buildings are often operating as town's shared resources, like fire stations and public works, and as hubs for conducting the public's business, but also offer opportunities for communities to come together. The proposed LD 185 will direct TIF revenues to the construction and renovation of these important public facilities. I urge you to support this legislation. Thank you for your service!
