I am extremely concerned with the direction at the Mills Administration is taking the state of maine. Her obsessiveness on taxes and her willingness to overspend it's out of control. Mills and her Administration is derelict of their duty and need to be removed. These taxes are egregious to the citizens of Maine and her willingness to threaten the Republican party that if they don't vote for this she will sign anything that comes across to a desk just goes to show you how socialist she really is. She stood up there and said if you vote me back in I will not vote for new taxes your taxes will not increase. Plain and simple she lied to the people of Maine.

Citizens of Maine need to stand up and ask for an impeachment
