Hi. Please pass theis added language to the Dog BARKING. I've got family up here in the County. They can't sleep. There's nothiing any one will do about it. Cops don't come. Say they will call the town. Town doesn't call anyone. The people don't live there all the time and the dogs are left outside in the hot, the cold, the rain always barking at each other. If the law was there, cops could do something everyone says. Yes! Been waiting for this for a long time to help.
