

Michelle Wilson  
Livermore  
LD 133

Hello my name is Michelle Wilson of Livermore. I would like to start by thanking the members who will be reading my testimony.

I am writing in opposition to LD133. I have seen first hand how neighbors try and use town and police resources for an issue that does not exist on my property. My husband has hunting dogs and uses them for rabbits. We are currently 1/2 mile away from neighbors and on a dead end road with visual/audio cameras 24/7. There is pending litigation currently.

- \* My main concern is that this has the potential to be abused by individuals who seek out grudges and who don't like hunting dogs.
- \* Town and law enforcement resources will be used without regard for tax payers and state funds.
- \* Fines being issued without any evidence and dogs being surrendered to over crowded shelters.
- \* Hindering hunting dogs and dog sporting events such as field trials and sledding.
- \* False reports to state and local officials which again waste time and resources.

Thank you again for considering my testimony.

Michelle Wilson
