LD 511

I am a resident of Falmouth and a supporter of advanced and innovative transportation infrastructure. As someone who drives, uses public transportation and is an avid cyclist I would like to urge the Transportation Committee to vote in support of LD 511.

This interim trail from Portland to Auburn would improve public health, protect the environment, connect to public transit, and provide options for people who don't drive, or simply want to drive less. These trails have been shown in other states also to be a driver of economic growth as they make the region a more desirable place both to live and to visit.

Please vote "ought to pass."
