LD 495

To the members of the Environment and Natural Resources Committee

Concerning LD 495 An Act to Require Rules Designed to Reduce Climate Change to Include Estimates of the Reduction in Adverse Climate Effects and of the Cost to Consumers

I support LD 495, and I ask that all of you support this bill as well since it is common sense legislation. There should be transparency in both the estimates of the reduction in adverse climate effects and the cost to consumers. We the people have a right to know. LD495 ought to pass.

Thank you.
John Dorval
