

Cynthia Taylor
Farmingdale
LD 29

My name is Cynthia Taylor, my town is Farmingdale and I'm in support of LD29. I support this because I currently use the rail trail in the Kennebec County area and have for years because it is a safe way to get out and exercise without the worry of busy traffic. My adult son is able to use the trail on his bike to go to Hannaford in Gardiner and to go for bike rides for exercise without the worry of traffic on the main road. This trail that would be built for nearby towns would be so beneficial for many as a way to get out and exercise and have a safe way to travel without the worry about being killed on the road by vehicles.

Again I've used the the rail trail for many years and I can't express enough how many people and families use the trail and benefit from it. I urge you to vote and ought to pass LD29, I thank you for your time for hearing my experience.
