

Timothy OLeary  
Gorham  
LD 387

I support LD 387. This needs to pass to protect the needs, first, of the citizens of Maine. It is the right thing to do. Maine citizens deserve first consideration when legislative action is presented beforehand for vote. How can you place illegal immigrants before hard-working Maine people? We do not have the fiscal demands that this bill proposes. If we did, Maine citizens should come before any other thought process. The Governor is not out for Mainers, but for her own personal and selfish enhancement within the realm of her own political satire.
