LD 387

I fully support LD 387 - An Act to Prohibit the Governor from Relocating Illegal Immigrants to This State. My understanding of the term "illegal immigrant" means a person who is not lawfully present in the United States. If one is not lawfully present in the U.S., then one has committed a crime. In my opinion, aiding and abetting someone who has committed a crime is also "committing another crime"!

While I know and agree that our country always has and hopefully always will, welcome people from other countries, it is high time that we insist that people who come here to live, come here LEGALLY! Becoming friends with a family who did just that last year, I was informed that our country brings 55,000 people here every year through the program that brought our friends here. I appreciate and endorse LEGAL immigration. I DO NOT approve or support the encouragement or the aid of relocating ILLEGAL immigrants to Maine, and I encourage you to support LD387!
