

Karen Matso
Kittery School Committee
LD 71

As a Kittery School Committee member, I am writing in support of LD 71. This bill will greatly impact Kittery Schools. We are a minimum receiver district and therefore have challenges funding our initiatives. As one of only a couple of districts in Maine providing full day preschool for students with and without disabilities, costs are high and we struggle with funding. We aspire to guarantee preschool for all Kittery children in the 26-27 school year and this bill will support that goal.
