My name is Sally Bliumis-Dunn and we live at 292 Doughty Point Road. We were horrified to hear of the PFAS spillage from the airport in August and are very worried and saddened.

We would like the PFAS removed from the hangars safely and soon so no other spillages can occur.

We swim daily in Long Reach Cove and have been waiting since August for the PFAS testing results of that area.

We know the water samples were tested and do not understand why it is taking so long.

Very sad and worrying for us.

Signed,
The Bliumis-Dunn Family
