Brunswick
LD 487

I write in support of LD 487, in the hopes of expanding passenger rail service in our state. Expanded passenger rail will help the state achieve it's climate goals, give Mainers more freedom of choice in transportation, and help reduce traffic if implemented more widely. This particular line would provide thousands of college students in the UMaine system a cheap, accessible way to get from home to the state flagship campus in Orono. Please vote in support of this.
