

Kathleen Halliday
Brunswick
LD 29

Dear Legislators,

I am writing to you to show support for LD29 which will create a rail trail for biking, walking, jogging. I use to live near a rail trail in Maryland and I can attest that people of all ages used it for exercise and fun! I do not like to ride my bike on the roads because I fear for my safety. A rail trail enables all levels of bikers to have a safe place to ride, joggers to jog and walkers to walk. In addition, it will bring in visitors who will spend their money in local shops and restaurants. It really is a “no brainer” and I hope that we will have a rail trail in our area in the near future. Thank you very much.
