

Lincoln Smith
Bowdoinham
LD 29

I'd like to give my full support for this bill. Having a walking/bike path that connects with existing trails north and south would be extremely useful and allow greater access to recreation and adjacent communities. One of the major impediments to my family walking and biking more around Bowdoinham is the lack of safe areas in which to do so. Shoulders on roads are too narrow and there are few good trails to access or they require driving first. Having a trail that runs through the middle of town would be so much more convenient and would be used by us to run errands in other towns, get exercise, and enjoy the outdoors.
